

FROM THE LIBRARY

Thanks to everyone who came to the Easter activities on Saturday. We especially appreciate the time Stephanie Moser gave to entertaining kids with her live rabbits. Anyone who wanted to hold a rabbit had the opportunity and Stephanie was happy to share information about the variety of rabbit breeds she raises. If you're interested in purchasing a rabbit, call the Library and we'll provide her telephone number. Very special thanks go to Allie Glidewell who became our Library bunny for the afternoon and for other individuals who stepped up to help where needed.

Summer is approaching very quickly. We have about another month of our story times – the picnics will be the week of May 10. Then a few weeks after the completion of story times, our summer reading program will begin. Our theme this year is **Make a Splash – Read**. Our first week of the program will be on June 2 with sessions at both 9 AM and 11 AM. Registration forms will be available around May 1. Please keep us in mind when you're throwing away empty cereal boxes or boxes of similar size. We'll be using them in a craft during the summer. We're also needing plastic bottle caps or milk jug caps for a craft as well. We really appreciate the support from our community.

Have you moved lately or gotten a new phone number? Please provide us with your new information. It's difficult to notify patrons who are waiting for materials when we don't have your current contact information.

I'm sure most people are aware that the Library is in the beginning stage of planning for a new facility. There have been several meetings of individuals who are committed to a new library. On Monday, April 19, there will be a meeting at Le Venue for anyone interested in the library planning. You will not be pressured into serving on a committee; this will be an informational meeting for anyone to attend. If you have an opinion on size, location, future services, or cost of the project, we hope you'll attend. We want to hear both positive and negative comments. This library project needs to be what the community wants and needs now and in the future. Please plan to attend the meeting at 7 PM on April 19. Call the Library if you have questions or comments – 755-7350.
